**Exercício de Fixação – Máscara de rede**

Para cada endereço IP e máscara de rede, calcule os endereços de rede e *broadcast*.

```
IP/Máscara = 40.11.12.13/255.255.255.0
Rede:                          Broadcast:

IP/Máscara = 110.15.46.214/255.255.255.128
Rede:                          Broadcast:

IP/Máscara = 72.16.100.1/255.255.240.0
Rede:                          Broadcast:

IP/Máscara = 182.16.97.66/255.255.255.252
Rede:                          Broadcast:

IP/Máscara = 192.168.0.246/20
Rede:                          Broadcast:

IP/Máscara = 200.17.156.112/22
Rede:                          Broadcast:

IP/Máscara = 65.63.11.45/11
Rede:                          Broadcast:

IP/Máscara = 189.123.89.97/30
Rede:                          Broadcast:
```
